  - Develop PP module such as BOM Upload Program, Production Orders Upload and Production Tag Receiver
  - Develop SD module such as Delivery Paper Form, Tax Invoice Form, Debit/Credit Note Form, Importer Security Filing (ISF) Form and Monthly Planning Report
  - Develop HR module such as Payroll, Bank Transfer and Provident Fund Report
- Implementation new projects: Develop Cloud Platform Integration (CPI)
  - Integrate between Performance & Goal Management (PMGM) and Employee Central (EC) on SuccessFactors
  - Export employee central from SuccessFactors with PGP encryption / ZIP file
  - Send API from SuccessFactors to other systems
- AMS Support
  - Support Go-Live Projects
  - Tune performance for ABAP Program and Cloud Platform Integration (CPI)

### **Technical Analyst (ABAP Programmer)**

August 2017 – April 2019

Emeritis Thailand

- Developed ABAP programs for HR module
  - Updated/Inserted/Deleted records in Standard Infotype, Modified Standard Infotype and Created Custom Infotype

- Developed interface program (ALV, Text File, PDF, Excel) such as Personnel Administration (PA), Employee Certification, Pay-slip and Training and Event Management (TEM)
- Developed Web Dynpro such as Employee Resume and 50BIS
- Developed Cloud Platform Integration (CPI)
  - Developed program by using groovy and XLST language programming such as importing and exporting Employee and Master Data on SuccessFactors with SFAPI (SuccessFactors Data API), oDataV2
  - Created OData Service to support other systems
  - Replicated SAP SuccessFactors Employee Master Data and Organization Assignments from Employee Central to SAP ERP HCM
- Analyzed, debugged, solved issues when applications had problems
- Provided unit testing and technical specification documents

### **Programmer Analyst (Product Quality Assurance)**

April 2014 – July 2017

Advanced Info Service PLC. (AIS)

#### Automation Testing

- Developed reusable functions by using Quick Test Professional (VBScript) and Robot Framework
- Converted manual test cases to automated test scripts for regression testing by using Shell Script, Quick Test Professional and Robot Framework
- Tracked and reported issues in the HP QC
- Setup Jenkins to run automated test scripts

#### Manual Testing

- Designed and created test cases to support all requirements for telecom applications. (i.e. Inbound/Outbound Roaming control usage)
- Designed and developed testing scripts for regression testing by using shell script
- Investigated issues and defects with development teams and operation teams
- Implemented testing infrastructure such as installing new library and configuring test lab environment
- Performed solving and troubleshooting problems with vendors when systems failed

### **Internship**

25 March – 31 May 2013

Advanced Info Service PLC. (AIS)

Radio Access Network Technical Division, Radio Planning and Operation Department

- Tested Antennas, RF Repeaters, Tappers, Hybrid Combiners, Diplexers and Triplexers.
- Measured spectrum.
- Provided Testing RF (Radio Frequency) documents.

### **Trainings**

- Agile Testing in Practice, IMC Institute
- Unix and Shell Script, Advanced Info Service PLC.
- Training and Practices on Software Testing Techniques, Aware Corporation Limited
- TCP/TP Fundamental, Advanced Info Service PLC.
- IP Network, Advanced Info Service PLC.
- Programming in C#, Iverson Training Center Co Ltd.
- Ood-e/JavaScript Good Parts, Advanced Info Service PLC.
- SAP Technical Academy Training, Emeritis Thailand.
- SAP Internal Sharing - SAP FI for Beginner, ABeam Consulting Thailand.
- Robotic Process Automation (RPA) Young blood E-Learning, STelligence and Automation Anywhere

### **Skills and Abilities (SAP)**

- ABAP Programming
  - Report/Interface: ALV, Text File, Excel
  - Form: Smart Form and Adobe Form
  - Enhancement: User Exits, BADI
  - Conversion: BDC, BAPI
  - Dialog Program
  - CDS Views
  - Web Dynpro
- Cloud Platform Integration (CPI)
- SuccessFactors API
  - SFAPI and ODataV2

### **Skills and Abilities (Non SAP)**

- Operating Systems : UNIX (Linux and Solaris)
- Automation Testing Tools: Quick Test Professional (QTP), Robot Framework
- Scripting Languages: Shell Script, VBScript, Groovy, JavaScript
- Programming Languages: C, Java
- Mark up Languages: HTML, CSS, XML
